SWP HOUSE PAINT

You can tell the difference between SWP and a single pigment and oil job. The SWP job is glossy, fresh and smart look ing. The single pigment job appears prematurely dull dirty and shabby look ing—even though protection may still remain in the paint. This is usually true because single pigment and oil paint has less control of chalking—weather roughens it, and dirt and soot cling to its roughenes surface. Modern SWP with its Multi Pigment balanced formula produces a clean just painted kind of job that stays listingly beautiful. There is one sure way to get a lasting and economical paint job—insist on SWP.

Let us show you how little it will cost to
